MEMORANDUM FOR: Deputy Director/Intelligence

ATTENTION :

[REDACTED]

SUBJECT : OSI Comments on ODE Report 4018

1. In view of correction 1 to the subject report the only items mentioned in the preliminary report which are of interest to O/SI are the two antenna farms located 6 and 19 nautical miles, respectively, southwest of Sofia.

2. The antenna installation consisting of eight (8) steel towers, 650 feet high, in a "V" formation within an area 350 feet by 450 feet, is of particular interest to the Electromagnetic Warfare Branch. This may indicate a highly directional broadcast antenna array or may possibly be utilized for jamming broadcasts in a specific area.

3. Details of the various types of antennas, size, directions, feeders, connecting wires, etc. must be known before specific analysis can be made of the antenna farms. It is doubtful that such detail can be recovered from photography of the resolution we have received to date from the Project.
